Education

B.Sc. in Computer Science

Afeka Tel Aviv Academic College of Engineering

2023 – 2026

GPA: 90

Technical Skills

Programming Languages: Kotlin, Swift, Python, Java, C, C#, SQL.

Technologies & Frameworks: Android, Firebase, Unity, HTML, JavaScript, PostgreSQL.

Computer Science Fundamentals: Object-Oriented Programming, Data Structures & Algorithms, Systems Programming.

Tools: Git, GitHub, Linux.

Projects

BrainShare - Android Application

Developed an Android app using **Kotlin** and **Firebase** for sharing academic notes. Implemented authentication, file uploads, ratings and scalable data handling.

NextStep

Developed during a college hackathon. NextStep helps students prepare for the job market through a personalized roadmap, CV tools and AI mentor chat.

Used **Base44**, **FastAPI**, **Firebase Firestore** and OpenAI API to build a hybrid system combining frontend screens, backend logic, progress tracking and AI-based career guidance.

RoachVsSlippersGame - Android Game

Developed an Android game with real-time mechanics and sensor-based controls. Implemented scoring system, local storage and interactive gameplay.

Afeka Travel Planner - Full Stack Web Application

Developed a full-stack application using **Next.js**, **Express.js**, and **MongoDB** for smart travel planning. Integrated AI-based recommendations, real-time maps and weather data to enhance user experience.

Unity Games (Gloom & Bloom, PiratesVsZombies)

Developed 2D/3D games using **Unity** and **C#**, including NPC interactions, mission-based progression and gameplay mechanics.

Military Experience

2021 – 2023

Recruitment Coordinator, IDF

Managed the transfer, review, and processing of medical documents for candidates prior to military recruitment, supporting the medical profile determination process. Handled inquiries through computerized systems and provided professional phone support while ensuring accurate documentation and efficient service.

Languages

Hebrew: Native | **English:** High proficiency
